

TERRACOTTA FACE MASK FACE SCRUB MASK

Cream gel with a slenne soil color
Packaging: tube

Scrubbing mask with purifying and moisturizing properties provided by the association of **AQUAXYL™** with clay.
SIMULGEL™ SMS 88 efficiently stabilizes the formula and makes the application comfortable (no tugging effect when applied on skin).
SEPITONIC™ M4 makes the skin look fresh and sparkling.

The skin feels soft and purified after the rinsing step.

Use procedure:

Put the mask in very fine layer on the whole face (avoiding the eye contour); let dry 5 minutes: the mask cracks ...
Erase by making very soft circular movements;
Rinse with warm water.

Raw materials from SEPPIC

AQUAXYL™

Xylitylglucoside and Anhydroxylitol and Xylitol

AQUAXYL™ moisturizes and restructures the skin by harmonizing the hydric flow of the skin. Water reserves are instantly boosted, water circulation is improved in all skin layers and water loss is reduced (*in vitro* and *in vivo* tests prove this efficacy). It's mechanism of action has been validated by cosmetogenomics. Cosmos and Natrue approved.

SIMULGEL™ SMS 88

SodiumAcrylate/Acryloyldimethyltaurate/Dimethylacrylamide Crosspolymer and Isohexadecane and Polysorbate 60

This product is in the form of liquid, and is ready-for-use. It is a thickening agent on a wide range of pH(3 to 10), and has a tremendous stabilizing power. It provides to the formulas an enriched and comfortable sense of touch, which is ideal for a "Cocoon" concept.

SEPITONIC™ M4

Magnesium Aspartate and Zinc Gluconate and Copper Gluconate and Calcium Gluconate

An ideal active to restructure mature skin. Calcium improves the epidermal differentiation. Skin is thicker, and is more resistant to the ravages of time
