Raw materials from SEPPIC

CAPIGEL™ 98

Acrylates Copolymer

Ready-to-use thickening liquid polymer that creates high viscosity in aqueous media following neutralization (pH>6.5). It also produces perfectly clear gels with a good resistance to electrolytes and polar solvents.

ORAMIX™ NS 10

Decyl Glucoside

Very well-tolerated surfactant from vegetal origin, This gentle cleanser provides an abundant, stable foam. Cosmos, Ecocert and Natrue approved.

AMONYL™ 380BA

Cocamidopropyl Betaine

Provides a fine foam that is stable over time. Ecocert approved.

AOUAXYL™

Xylitylglucoside and Anhydroxylitol and Xylitol

AQUAXYL™ moisturizes and restructures the skin by harmonizing the hydric flow of the skin. Water reserves are instantly boosted, water circulation is improved in all skin layers and water loss is reduced (in vitro and in vivo tests prove this efficacy). It's mechanism of action has been validated by cosmetogenomics. Ecocert and Natrue approved.

SEA STARWORT OIL

Caprylic/Capric Triglyceride/Aster Maritima/Tripolium Extract

Oily protecting & repairing active to regulate skin's blood micro circulation and to reduce the redness of the skin (in vitro & in vivo studies).
