With WESOURCE

## White and compact emulsion / Packaging: Tube

**pH:** 5.8 / **VISCOITIES: 1M at RT:** 74 200 mPa.s Brookfield LV4-6 /**STABILITY:** M1 at RT, 45°C, 4°C, cycles -5°C/+40°C.

## FORMULATION ADVICES / Pilot - 2kg

Take a beaker of 3L, weigh the ingredients of phase B and melt them in a hot water bath at 85°C. When phase B is completely melted, add phase C. Heat the water of the phase A and emulsify by adding phase (B+C) into phase A (6 min, 5000 rpm). Then, cool down at room temperature and homogeneize (300 rpm). Finally, homogenize the phase D and add it into the cold emulsion under agitation.

This zero-defect cream is light and promises a long-lasting perfect skin.

**MONTANOV™ 202** is a glycolipidic emulsifier. It promotes liquid crystals, playing a role in **maintaining skin moisturization over time**. It delivers a light and evanescent sensory feel.

*(Arachidyl Alcohol and Behenyl Alcohol and Arachidyl Glucoside)*

**SEIPLUS™ 400** is a silicone-like polymer, thickens the formula and brings **emollience and gliding** during application.

*(Polyacrylate-13 and Polyisobutene and Polysorbate 20)*

**LANOL 99** brings a **soft and light skin feel** during the application.

*(Isononyl Isononanoate)*

**CERAMOSIDES™ HP** is an high-performance anti-aging shield.

**CERAMOSIDES™ HP** are an original combination (patented) of natural CERAMIDES and OMEGA which **protect the skin from the loss of elasticity**, one of the primary causes of enlarged pores with age. Thus, the skin texture is refined and **pores are tightened**.

*(Triticum Vulgare (Wheat) Seed Extract)*

**SEPICIDE™ HB** is a liquid and easy-to-use preservative with a broad antimicrobial spectrum.

*(Phenoxyethanol and Methylparaben and Ethylparaben and Propylparaben and Butylparaben)*

**ADDITIONAL INGREDIENTS:** Propanediol Dicaprylate - DUB Zenoat (Stéarinerie Dubois) / Coco Caprylate Caprate - LANOL 2681 (Stéarinerie Dubois) / Caprylic/Capric Triglyceride - TRIGLYCERIDE 5545 (Stéarinerie Dubois)
